Professional Summary

Front-End Developer with ~6 years of experience designing and developing scalable, high-performance web applications using Angular, React, and JavaScript. Expertise in UI/UX design, state management, API integration, performance optimization, and Agile methodology. Proven ability to create pixel-perfect, mobile-responsive interfaces and reusable components.

Technical Skills

- **Frontend** : React.js, Angular, JavaScript (ES6+), TypeScript, HTML5, CSS3, Bootstrap, SCSS, Redux, PWA, Nebular, Chart.js, Formik
- **Backend**: RESTful APIs, Node.js (basic)
- **Databases**: MySQL, MongoDB (basic)
- **Tools & IDEs**: Visual Studio Code, Git, Jira, Trello, Figma, Rechart
- **Operating Systems**: Windows
- **Others**: Google Map APIs, Responsive Design

Professional Experience

Gateway Software Solutions – *Software Engineer | Delhi | (July 2022 – Present)*

- Developed and maintained enterprise web applications using React.js, Redux, and component-driven architecture.
- Reduced application load times by 30% via code-splitting, lazy loading, and Redux state management.
- Built modular and reusable UI components ensuring mobile responsiveness and cross-browser compatibility..
- Implemented secure, role-based access control and form handling using Formik and Yup.

- Integrated RESTful APIs and contributed to bug fixing across multiple platforms.

Key Projects:

- **HDOR Web Application:** Optimized performance and designed scalable components.
- **Organizer Portal:** Designed and developed a modular app from scratch with reusable layouts.
- **HDOR Admin:** Improved UX and handled data-driven UI with API integration.

Quick Ride – Senior Software Developer | Bangalore | (June 2019 – June 2022)

- Developed highly interactive single-page applications (SPAs) using Angular.
- Enhanced user interfaces based on usability feedback.
- Built internal admin dashboards using Nebular, Chart.js, and dynamic forms.
- Integrated charts and handled API communications.
- Collaborated in agile and sprint planning.

Key Projects:

- **Quickride Web App:** Real-time tracking with Google Maps integration.
- **Operator Console:** Built dashboards with interactive charts (Chart.js).
- **Marketing Application:** Built using Nebular library with role-based access.
- **Customer Support Portal:** UI enhancements and bug fixes.

Education

Bachelor of Engineering – Computer Science

ShriRam Institute of Information & Technology, Gwalior

July 2014 – June 2018 | CGPA: 7.54
